

Why you can't afford  
to miss this event

ARGUS  
USER GROUP

Why you  
can't  
afford to  
miss this  
event

---

# 01

## Strengthen Your Skills

No matter your skill level, you'll learn new techniques and tools at the annual Argus User Group Meeting.

---

# 02

## Stay Current

Our industry is changing faster than ever, with new products and techniques continually evolving. AUG is designed to keep you ahead of the curve.

---

# 03

## Learn from the Experts

It's rare to have so many PV and Argus Suite experts in one place, not only delivering an Argus education, but open to answering your questions.

---

# 04

## Make Valuable Connections

AUG is a great way to learn what industry peers are experiencing with Argus, including techniques, tools and best practices.

# About Argus User Group

## Culture

AUG's user-centric approach, with its focus on an in-depth Argus education and insights into the current regulatory landscape, is a vendor- and sales-pitch free zone. In addition to "Ask the Experts" questions are encouraged throughout the program.

## Content

AUG's speakers include Subject Matter Experts (SMEs) with deep expertise in Argus, including SME's that were the original architects of the software prior to its acquisition by Oracle. In addition, each AUG offers a changing lineup of industry speakers that share experiences on practical application of technology and other relevant topics.

## Community

AUG brings together people that share similar experiences and challenges in a collaborative environment that enables the exchange of ideas and encourages dialog.

## Connections

Re-engage with former contacts and initiate new acquaintances – AUG provides numerous opportunities during the 2+ day program to network with your peers.

Whether you  
are currently  
using Argus or  
thinking about it,  
**this meeting  
is for you!**

Typical attendees include:

- Chief Medical Officer
- Global Head of Safety
- VP/Head of R&D IT
- VP/Director/Manager Drug Safety Systems
- VP/Director/Manager PV Operations

**Not currently using Argus?**

In the pharma industry, changes are occurring at a rapid-fire pace. Your organization may have the opportunity to shift to Argus at some point in the not-so-distant future, whether due to internal changes or M&A activity.
